individual service you want to cancel. Confirm your desire to cancel your subscription in the box that appears. You will return to the Prime Video subscription manager page at any time to resume your subscription. After you cancel, you'll still have access to the video channels until your subscription period ends. Your cancellation ensures that Amazon does not automatically renew your subscription on the stated renewal date. Unfortunately, you won't get a refund for canceling, even if you haven't used the subscription. If you follow the steps above and don't find the video channel you're trying to cancel, you may not actually have a subscription. Amazon Prime members have access to a wide selection of premium video content, including numerous popular shows from networks such as HBO. If you're watching programs like HBO's *The Wire* from Showtime or *Californication*, it could be because they're part of your Amazon Prime membership and aren't part of an additional subscription to those add-on channels. Once you've signed up for a free trial, Amazon is unlikely to offer it a second time. Thanks for letting us know! Tell us why! One of the features of Amazon's Prime Video Channels, which the company emphasizes, is how easy it is to cancel a subscription. With their self-service cancellation you end a subscription to any package at any time with just 3 clicks on their website. Combined with a free trial on all subscriptions, which range from 7 to 30 days depending on which add-on package you select, it makes the service very easy to try and use on and off. Here's a guide to the cancellation process. Go to your Amazon Video subscription page. You can find a link in the Your Account menu on Amazon. Find the subscription you want in your video subscription list, and then click the Cancel Subscription link. Click the Cancel Subscription button in the pop-up message. And that's it. Your subscription will not be renewed/charged when the date is coming. Until that date, however, you still enjoy the subscription.
